

Ruby Tuesday Books

BOOKS TO
SPARK A LOVE OF
READING AND
DISCOVERY

Well . . . those first 10 years have flown by So here's to the next 10!

From our small beginnings, Ruby Tuesday can now proudly boast more than 250 titles for children aged 0 to 16 years.

Our passion for creating beautiful educational books with high-quality content only increases with time.

And while Ruby Tuesday is growing each year, EVERY single book is still super special to us and we love being hands-on at every step along the way.

We hope you enjoy our books!

Shan & Ruth

Why Non-Fiction?

We are often asked why we chose to start a non-fiction publishing company. To answer that question, we actually need to go back quite a few decades. . . .

When Ruth was just six years old the first book she ever chose for herself from a school bookclub magazine was a non-fiction title. The book, *Gorilla Baby: The Story of Patty Cake*, still sits on the office bookshelf today. It has inspired a life-long love of non-fiction reading and a passion for animals, nature and science. When deciding what types of books Ruby Tuesday would publish, the choice was easy: *beautiful books to help children discover that real life and facts can be every bit as exciting and engrossing as fiction!*

From helping young people deal with climate change anxiety . . .

. . . to getting our youngest readers ready to manage their money . . .

. . . to caring for our teeth (with lots of smiles and laughs along the way)!

See what's new for 2026.

Let's Talk Climate Change

• Take Action • Be Positive • Love Our Planet

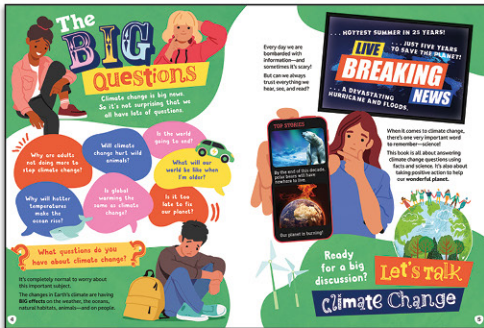

Stories in the news about natural disasters and climate change can be scary. But the antidote to climate change anxiety is action!

This book helps kids understand what's going on — without the drama and fear. It also empowers kids with the knowledge and ideas to take daily positive actions to help care for our world. Packed with science, this book's chatty, engaging, Q&A style will explain to readers exactly what's happening, why it's happening and what people worldwide can do to help.

The Seasons in Mr Green's Garden

In this beautiful new science series, readers will join the popular picture book characters Mr Green and his friend and neighbour young Mo in their community garden. As each season passes, Mr Green and Mo will discover how the plants change and how the animals that make the garden their home spend their days, find food and raise their young.

These books are perfect for studying plant and animal life-cycles and for building an understanding and appreciation of the natural world and its cycles. This series will also teach children how we grow food and will help to build a love of spending time in nature.

Money and You!

Age Range

8-12 YEARS

978-1-78856-335-2

This new series by financial experts Astra Birch, Joanne Bell and Anna Young gives older children and young adults all the information they need to understand the world of money.

Whether it's spending, budgeting and saving right now, or understanding the world of paying bills, insurance, taxes and mortgages in the future, each title is a fun, highly engaging and accessible read packed with everyday examples and tips. Readers will also learn how people earn money by doing work and discover the world of business and entrepreneurs.

Why Pay Tax? Your Country Needs You!

Every year, the UK government collects billions of pounds of taxes. This money is used to run the country and take care of everyone who lives there.

Paying a Country's Bills

Just as you need your family home bills to pay, so does the government. Without the money, it wouldn't be possible to run the things that keep our country going and that we all rely on, like schools, hospitals and the police.

Why do we pay taxes?

- To pay for the things we need to live.
- To pay for the things we need to run the country.
- To pay for the things we need to take care of everyone who lives there.

Is there another way?

There is! But it's not a good idea. If we didn't pay taxes, the government wouldn't have the money to run the country. This would mean that we wouldn't have the things we need to live.

More Ways to Pay Tax

Maybe you pay tax when buying big or small things. You might also pay tax when you work for a company or have a bank or mobile phone. There are many ways to pay tax.

Other Ways to Pay Tax

When you buy a car, you pay tax on it. When you buy a house, you pay tax on it. When you buy a car, you pay tax on it. When you buy a house, you pay tax on it.

Taxes Are Forever

Taxes are a part of life. You pay taxes on things you buy, things you sell, things you own, and things you do. Taxes are a way to pay for the things we need to live.

Local Taxes

There are many different types of taxes. Some are paid to the government, and some are paid to local councils. Local taxes are used to pay for things like schools, hospitals, and the police.

Local Council Taxes

Local councils are responsible for many of the things we need to live. They pay for things like schools, hospitals, and the police. Local council taxes are used to pay for these things.

Earning Money & Paying Taxes

Your First Budget

It's never too soon to start budgeting.

At the moment you may not have any (or only a little) money. But you can start to budget now. The idea is to make sure you don't spend more than you have. This way you can save up for things you want to buy.

Make a Budget

To make a budget, you need to know how much money you have and how much you need to spend. You can do this by writing down all the things you need to buy and how much they cost.

Item	Cost
Food	£10.00
Transport	£5.00
Entertainment	£3.00
Utilities	£2.00
Savings	£1.00
Total	£21.00

Spending & Budgeting

Now you can see whether or not you have enough money to buy the things you need.

Example:

Income: £20.00
 Spending: £21.00
 Difference: -£1.00

Since you are spending more than you have, you need to find a way to save up for the things you need to buy.

Your First Budget

Write down all the things you need to buy and how much they cost. Then write down how much money you have. This will help you see if you have enough money to buy the things you need.

Spending & Budgeting

Buying & Running a Car

Once you're older, one of the first things you might need to pay for is a car.

Getting Going

Car costs can be quite high, but you can save money by buying a car that is used. You can also save money by buying a car that is reliable and easy to maintain.

Your First Car

Depending on how much you have to spend, you might buy a brand new car or a second-hand car. Take a look at the options and see which one is right for you.

Buying a Car

When you buy a car, you need to pay for it. You can pay for it in different ways, such as by using a credit card or by taking out a loan.

On the Road

When you've passed your driving test and you've bought your car, you'll need to get it on the road.

Getting on the Road

There are several things you need to do to get your car on the road. You need to get a valid driving licence, you need to get a valid MOT, and you need to get a valid insurance policy.

Running a Car

Running a car can be quite expensive. You need to pay for things like fuel, insurance, and maintenance. You also need to pay for things like parking and tolls.

On the Road in the UK

When you're on the road in the UK, there are several things you need to know.

Driving in the UK

You need to have a valid driving licence to drive in the UK. You also need to have a valid MOT and a valid insurance policy.

Driving on the Road

When you're on the road, you need to follow the rules of the road. This includes things like staying in your lane, stopping at red lights, and not drinking and driving.

Paying the Bills

Avoid Scams and Be Money Safe

It's a sad fact of life, but there are lots of criminals out there who want to steal our hard-earned money. Every year, millions of people become victims of financial scams.

How to Stay Safe

Be careful of people who offer you too good to be true deals. Don't give out your personal information to people you don't know. Don't click on links in emails or text messages from people you don't know.

What to Do if You're Scammed

If you think you've been scammed, report it to the police. You can also report it to Action Fraud, a charity that helps people who have been scammed.

Bad Life Skills

There are several things you need to know to be money safe.

Understanding Your Money

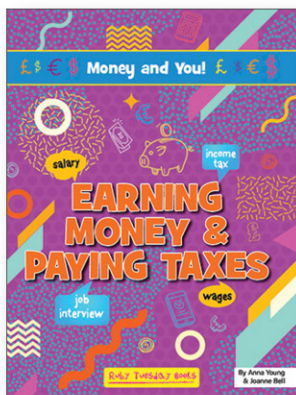

Know how much money you have and how much you need to spend. Write down all the things you need to buy and how much they cost.

Setting a Budget

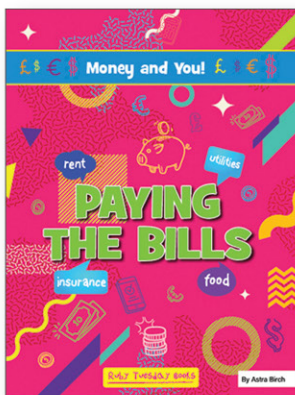

Write down all the things you need to buy and how much they cost. Then write down how much money you have. This will help you see if you have enough money to buy the things you need.

With many young adults (and even some adults) struggling to manage their finances, it's never too early for children to begin learning about the essential life skill of managing their money.

Each book is a realistic and comprehensive look at one topic. And together, the series will send kids out into the world equipped to become savvy, money aware young people.

Earth's Insects Need You!

Age Range
8-12
YEARS

978-1-78856-323-9

Earth's insects are in trouble. That's one half of this book's simple but incredibly important message. The book's other, more hopeful, "call to action" is that everyone can do something to help protect bees, beetles and thousands of other insects.

Without insects, many animals, including birds, amphibians, fish and reptiles could not survive. Humans would struggle to grow enough food and decomposers would not be at work recycling dead plants and other waste materials. However, it's estimated that, worldwide, insect numbers have declined by around 75% in the past 50 years.

In this book, readers will learn how the destruction of wild habitats and the use of pesticides is affecting insects. They will learn what we can do as consumers and campaigners. AND they will discover how to create wild places for insects.

This book is perfect for young conservationists who want to improve our world and ensure a healthy future for the smallest and most endangered members of the animal kingdom.

SPIDERS

We're Not Scary We're Amazing!

Age Range
7-10
YEARS

If you love spiders, or if you are terrified of spiders, or if you just want to be mind-boggled by some incredible arachnid facts, this book is for you!

978-1-78856-324-6

These little eight-legged creatures are often the stuff of people's nightmares, but spiders are amazing animals that are essential for our world. Told from a spider's point of view, in this book, spiders set out to convince their human doubters that they really aren't out to scare or harm people. In fact, they are far too busy weaving beautiful silk structures, hunting, keeping insect pests under control, and raising their young to want to frighten humans.

Inside the book:

- Readers will meet some weird and wonderful spiders.
- They will learn how spiders are essential to ecosystems everywhere.
- They will investigate why some people are afraid of spiders
- And they will celebrate the lives of these little animals that so often get ignored or are dismissed as scary.

978-1-78856-207-2

In this delightful, science-packed picture book, readers will join two groups of young friends as they each plant a tree and then share their excitement through a series of penpal letters. In the UK, the friends plant an acorn and share all the facts about how their oak tree will become a maker of oxygen, a cleaner of the air, a feeder of the soil and a home for thousands of tiny creatures. And in Senegal, in the Sahel region of Africa, the friends plant an acacia tree that will become a source of income for their family and part of the Great Green Wall that will stretch across Africa, protecting the Sahel from the Sahara Desert. This uplifting story will give readers plenty of information about trees and includes a **PLANT YOUR OWN TREE** activity.

When Little Mouse Got Stuck!

Age Range

3+ YEARS

Rights sold

- Indonesia
- Netherlands

Pbk: 978-1-78856-329-1

But Suddenly, Little Mouse was slipping...

...and sliding...

...and tumbling and...

STUCK!

Little Mouse and her babies live in the hedgerow. But one day, something big and noisy and smelly visits their world and leaves something behind. Sniff? Sniff? As Little Mouse investigates a tempting smell, she finds herself, slipping... and sliding... and tumbling and... stuck! She is trapped in a plastic bottle that was discarded by people in a car. How will she ever escape and make it home to her hungry babies? This important story will highlight the dangers of littering and the harm rubbish does to wild animals every day.

Mr Green Grows a Garden

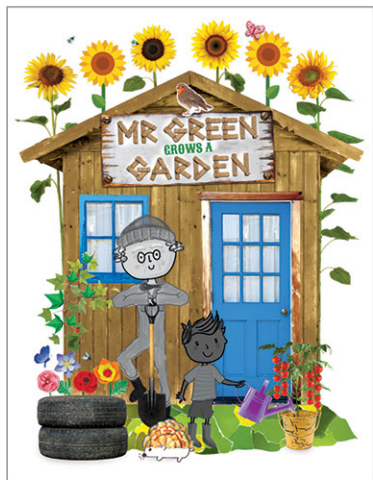

The first in a new series of beautiful picture books from Ruby Tuesday that explore conservation and science themes.

Age Range

5+ YEARS

Rights sold

- Indonesia
- Netherlands

978-1-78856-166-2

Specifications:

- Ages: 5+ years
- Size: 280 x 210 mm
- Pages: 32
- Pbk: £8.99
- Curriculum Links: Non-fiction reading, science, STEM

In the middle of the big city, there was a tired, ugly place that made Mr Green feel very sad . . .

So begins this uplifting and charming story of the magic that can happen when young people, older people and plants come together.

As Mr Green grows his garden in an abandoned, forlorn space in the city, the following themes are explored:

- How plants grow, including vegetables
- Creating places for wildlife
- Rebuilding ecosystems
- The importance of planting trees
- How soil is a living thing that needs to be nurtured
- The importance of encouraging friendships across the generations
- Discovering how enjoying nature and being outdoors is good for our mental health

Fred & Woody's Fantastic World

Age Range
3+
YEARS

With laugh-out-loud text and cool illustrations, the Fred & Woody books help educators, parents and carers initiate honest and age-appropriate conversations with young children about the following issues:

- Staying safe and consent; naming and talking about body parts with confidence
- Celebrating that there are many different kinds of relationships and families
- Understanding and dealing with bereavement

Specifications:

Whose Little Baby Are You?

Age Range
5+
YEARS

From a fluffy ostrich chick to a tiny, newborn giant panda, this book-banded series introduces readers to some adorable baby animals. Not every baby looks like its parents, so after meeting each little creature at the start of their book, readers will turn the page to discover who the baby animal belongs to. Readers will learn how animal mums and dads care for their young and they will see how each baby animal grows, changes and gets ready for its adult life.

THE SECRET LIVES OF INSECTS

Age Range
7+
YEARS

Rights sold
• Indonesia
• USA

The lives and habits of insects can be truly incredible. Some, however, are so gross you probably won't even want to read about them. Oh... You do?

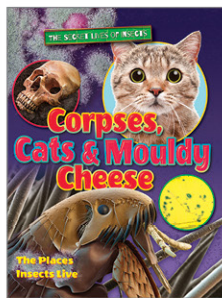

Each book in this new series is packed with truly unbelievable facts about some of the smallest members of the animal kingdom. From wasps that turn cockroaches into zombies to help them take care of their larvae, to beetles that repel predators with stinking, poisonous, boiling-hot farts.

Making Sense of **CLIMATE CHANGE**

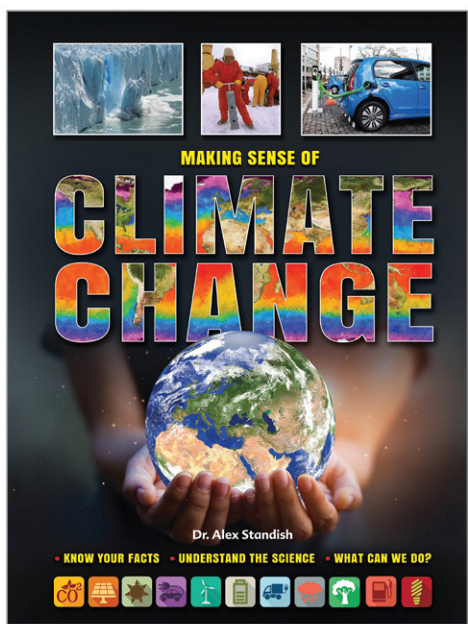

Age Range
8-12
YEARS

• Know Your Facts • Understand the Science • What Can We Do?

by **Dr Alex Standish**

Senior Lecturer in Geography Education
University College London

There's no Planet B, climate change is happening and no one is more ready to tackle this issue than kids. But in recent times, discussion of climate change and its effects has begun to cause fear and anxiety in many young people. This new book by Dr Alex Standish gives an evidence based, informative and calm overview of what's happened in Earth's past, what's happening now, what could happen in the future and what kids, adults and governments worldwide can do to help protect our planet from the effects of climate change. Lots of facts, lots of science, lots of tips and ideas to help everyone make sense of climate change!

Books to spark a love of reading and discovery

From Book 1: The Room

From Book 2: Shadows

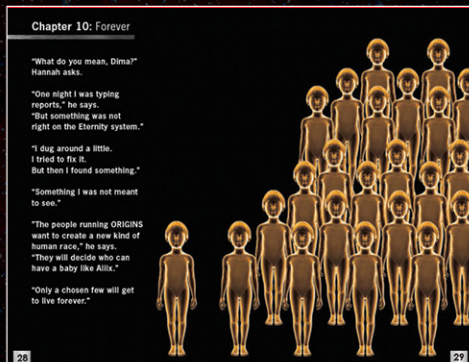

A secret project to combine human and extra-terrestrial DNA. Two teenage siblings, Aliix and Hannah. A childhood (which has been wiped from their memories) spent in a mysterious laboratory. And a fight to save Aliix's life and escape their past.

This innovative concept tells an exciting, sophisticated, Young Adult, science-fiction story across six books. Each book provides a satisfying instalment (or episode) that leaves the reader with some questions unanswered and a nail-biting cliffhanger. Centauri is set in the UK in the present time. The terror and tension is amplified because it takes place in a world we think we know and can trust. . . .

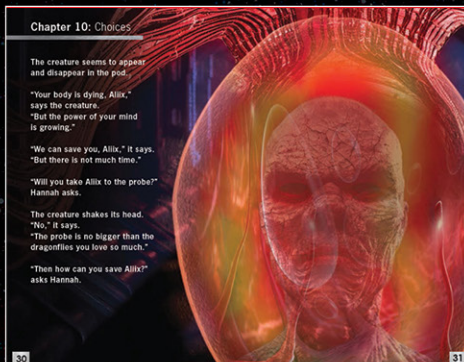

We all know that feeling of finishing one episode in a box set and not being able to resist watching the next. The Centauri books capture that excitement for readers. The books are available in a fantastic slip case that perfectly recreates the excitement and anticipation of opening a traditional TV box set.

Specifications:

- Reading age: 7-8 years
- Interest age: 12 years +
- Pages: 48
- Size: 198 x 130 mm
- Format: Pbk
- 1700 words per book
- Pbk: £7.99

Hello Big Wide World

Meet four adorable characters who each have important jobs to do in this new board book series. As readers enjoy the cute and simple stories, they will be introduced for the first time to the important science and early learning concepts of weather, the water cycle, photosynthesis and the life cycles of trees and flowers.

Little Cloud makes rain.

Little Leaf makes food for his tree.

Readers will discover how Little Cloud makes rain for trees and flowers. Little Raindrop lives inside Little Cloud until he falls to the ground ready to become a refreshing drink for a thirsty tree. Little Leaf makes air for us all to breathe, and when autumn comes, he becomes part of a hedgehog's leafy winter nest. And even though it tickles, Little Flower becomes food for nibbling snails and caterpillars, gives nectar to bees and butterflies, and, when she makes seeds, becomes a welcome autumn feast for hungry birds.

Meet the Shapes!

Every spread includes a flap that reveals additional information or the answers to activities on the main page.

Age Range

0-4
YEARS

Four vibrant, colourful board books that introduce little ones to squares, circles, rectangles and triangles. Each book includes shape recognition activities and fun with colours and numbers.

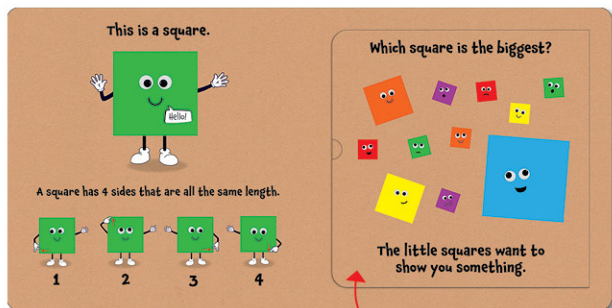

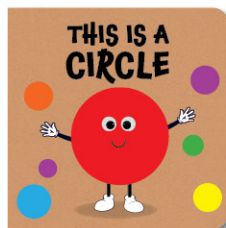

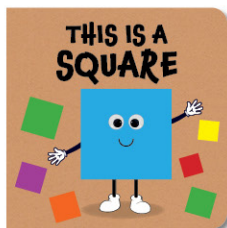

Includes Lift-the-Flap.
