

Ruby Tuesday Books

BOOKS TO
SPARK A LOVE OF
READING AND
DISCOVERY

Well . . . those first 10 years have flown by So here's to the next 10!

From our small beginnings, Ruby Tuesday can now proudly boast more than 250 titles for children aged 0 to 16 years.

Our passion for creating beautiful educational books with high-quality content only increases with time.

And while Ruby Tuesday is growing each year, EVERY single book is still super special to us and we love being hands-on at every step along the way.

We hope you enjoy our books!

Shan & Ruth

Why Non-Fiction?

We are often asked why we chose to start a non-fiction publishing company. To answer that question, we actually need to go back quite a few decades. . . .

When Ruth was just six years old the first book she ever chose for herself from a school bookclub magazine was a non-fiction title. The book, *Gorilla Baby: The Story of Patty Cake*, still sits on the office bookshelf today. It has inspired a life-long love of non-fiction reading and a passion for animals, nature and science. When deciding what types of books Ruby Tuesday would publish, the choice was easy: *beautiful books to help children discover that real life and facts can be every bit as exciting and engrossing as fiction!*

From helping young people deal with climate change anxiety . . .

. . . to getting our youngest readers ready to manage their money . . .

. . . to caring for our teeth (with lots of smiles and laughs along the way)!

See what's new for 2026.

Let's Talk Climate Change

• Take Action • Be Positive • Love Our Planet

Stories in the news about natural disasters and climate change can be scary. But the antidote to climate change anxiety is action!

This book helps kids understand what's going on — without the drama and fear. It also empowers kids with the knowledge and ideas to take daily positive actions to help care for our world. Packed with science, this book's chatty, engaging, Q&A style will explain to readers exactly what's happening, why it's happening and what people worldwide can do to help.

How We Used to Live

This fascinating look at the past gives young readers the chance to see moments from Britain's history captured in photographs of daily life, special events and objects.

Many of the topics are "living history" and the author has interviewed people who were born during the 1930s, 1940s and 1950s who were delighted to share their memories of everyday life. Each spread will form the basis for a wonderful discussion with children about How We Used to Live.

How To Grow

We all enjoy these delicious treats, but how do we get from a tiny seed to a jar, bottle, bag or plate of these favourite foods?

Each book in this series is full of bright step-by-step photos and easy-to-follow instructions that will show young children how to grow a plant (with lots of science along the way). At the end of each book there is a recipe to make the foodstuff.

Today, many children lack knowledge about how foods are grown. These truly hands-on books fill that gap and will get little hands both muddy and sticky!

The Seasons in Mr Green's Garden

In this beautiful new science series, readers will join the popular picture book characters Mr Green and his friend and neighbour young Mo in their community garden. As each season passes, Mr Green and Mo will discover how the plants change and how the animals that make the garden their home spend their days, find food and raise their young.

These books are perfect for studying plant and animal life-cycles and for building an understanding and appreciation of the natural world and its cycles. This series will also teach children how we grow food and will help to build a love of spending time in nature.

Earth's Insects Need You!

Earth's insects are in trouble. That's one half of this book's simple but incredibly important message. The book's other, more hopeful, "call to action" is that everyone can do something to help protect bees, beetles and thousands of other insects.

In this book, readers will learn how the destruction of wild habitats and the use of pesticides is affecting insects. They will learn what we can do as consumers and campaigners. AND they will discover how to create wild places for insects.

Specifications:

- Ages: 7+ years
- Size: 280 x 210 mm

SPIDERS

We're Not Scary We're Amazing!

If you love spiders, or if you are terrified of spiders, or if you just want to be mind-boggled by some incredible arachnid facts, this book is for you!

978-1-78856-324-6

Told from a spider's point of view, in this book, spiders set out to convince their human doubters that they really aren't out to scare or harm people. In fact, they are far too busy weaving beautiful silk structures, hunting, keeping insect pests under control, and raising their young to want to frighten humans.

The Story Of Our Tree

Age Range

5+ YEARS

In this delightful, science-packed picture book, readers will join two groups of young friends as they each plant a tree and then share their excitement through a series of penpal letters. In the UK, the friends plant an acorn and share all the facts about their oak tree. And in Senegal, in the Sahel region of Africa, the friends plant an acacia tree that will become a source of income for their family and part of the Great Green Wall that will stretch across Africa.

When Little Mouse Got Stuck!

Pbk: 978-1-78856-329-1

But Suddenly, Little Mouse was slipping...

...and sliding...

...and tumbling and...

STUCK!

Little Mouse and her babies live in the hedgerow. But one day, something big and noisy and smelly visits their world and leaves something behind. Sniff? Sniff? As Little Mouse investigates a tempting smell, she finds herself, slipping... and sliding... and tumbling and... stuck! She is trapped in a plastic bottle that was discarded by people in a car. How will she ever escape and make it home to her hungry babies? This important story will highlight the dangers of littering and the harm rubbish does to wild animals every day.

Dragonfly

Specifications:

- Ages: 5+ years
- Size: 170 x 140 mm
- Pages: 24
- Format: Pbk
- Pbk: £4.99
- Curriculum Links: Science and Non-fiction reading

The Busy Monsters

Age Range

4+
YEARS

Meet Molly, Max, Megan and Mo – **The Busy Monsters**. These fun, book-banded stories from Ruby Tuesday have been expertly crafted to help young children learn to read.

To build reading confidence, each book combines repetitive, predictable text with high-frequency and familiar sight words. The books are illustrated with bold, quirky, collage-style artwork, and each monster story explores a different early learning concept:

Colours Numbers Opposites Shapes

Each book also includes activities and a quiz!

Specifications:

- Ages: 5+ years
- Size: 170 x 140 mm
- Pages: 24
- Format: Pbk
- Pbk: £4.99
- Curriculum Links: Guided reading

Living Things and Their Habitats

In this series readers will discover how living things depend on each other and their environment for survival. Packed with facts and fantastic photos that support the text, each book takes readers on a mini safari. Children will discover connections and interactions between the plants, animals and other living things that make each habitat their home.

978-1-78856-045-0

Each book gives students the chance to work scientifically:

- Ask questions and use scientific enquiries and evidence to answer them
- Set up simple practical enquiries and tests
- Make observations, take measurements, use scientific equipment
- Gather, record, classify and present data using scientific language, drawings, labelled diagrams and charts
- Use results to draw conclusions, make predictions and ask new questions

The series is supported with free downloadable teacher resources and worksheets.

Making Sense of CLIMATE CHANGE

Age Range

8-12
YEARS

• Know Your Facts • Understand the Science • What Can We Do?

by Dr Alex Standish

Senior Lecturer in Geography Education
University College London

There's no Planet B, climate change is happening and no one is more ready to tackle this issue than kids. But in recent times, discussion of climate change and its effects has begun to cause fear and anxiety in many young people. This book by Dr Alex Standish gives an evidence based, informative and calm overview of what's happened in Earth's past, what's happening now, what could happen in the future and what kids, adults and governments worldwide can do to help protect our planet from the effects of climate change. Lots of facts, lots of science, lots of tips and ideas to help everyone make sense of climate change!

978-1-78856-167-9

Specifications:

- Ages: 8 + years
- Size: 280 x 210 mm
- Pages: 32
- Format: Pbk
- Pbk: £8.99
- Curriculum Links: Key Stage 2, Science, STEM, Non-fiction reading

Inside the book:

- What is the atmosphere?
- What is climate and how is it different from weather?
- Earth's changing climate: ice ages, thaws and warmer times
- How is the climate changing now and what are its effects on Earth?
- How have human actions affected Earth's climate?
- How do we know? Climate scientists at work.

Get to Work with Science and Technology

Age Range
8+
YEARS

Get to Work with Science and Technology is a fascinating narrative non-fiction series that introduces readers to the real-world applications of STEM: Science, Technology, Engineering and Maths.

From analysing data to using tools and technology, readers will be excited to see how real-life scientists and engineers solve problems every day using the same scientific techniques that children study and use in the classroom.

THE SECRET LIVES OF INSECTS

Age Range
7+
YEARS

The lives and habits of insects can be truly incredible. Some, however, are so gross you probably won't even want to read about them. Oh... You do?

Each book in this new series is packed with truly unbelievable facts about some of the smallest members of the animal kingdom. From wasps that turn cockroaches into zombies to beetles that repel predators with stinking, poisonous, boiling-hot farts.

Specifications:
